

Cooking Verbs

About the words

The images in this set seem to be some of the most popular images I've made. One universal thing in human culture is food, and maybe that's why. The images here I've included have been a big help for teaching students simple instructions. If you have students that like cooking they'll have a great time with these images.

Who is this sheet for?

These cards are for any students who need to use language to give instructions or talk about food preparation. You can introduce and teach how to cook something and later expand that into how to do just about anything, changing a tire, sewing a button on a shirt etc.

Using the worksheet

There are countless ways to use cards in classes. Games of memory, matching games, and games where kids run to the card or throw the card into a hat for a point. As long as you are active and fun and the kids are enjoying themselves you're going to have a great time and they are too. Make sure you and your students say the words again and again and speak, make sentences so everyone can hear and say the sentences in context.

Note: Kids have a way of destroying cards they get hold of, so after printing the cards you might want to laminate them and remember to round off the edges so no one gets a sharp card in the eye. If you do it well enough this opens up the usage of the cards for a few good games where you can flick or flip the cards to be more active.
